

الدعامة في الكائنات الحية (نبات - انسان)

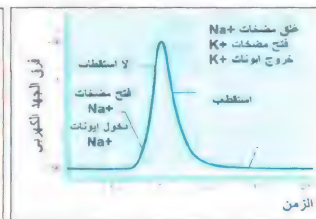

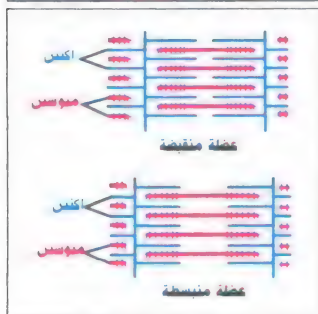

خلايا كولنشيمية - دعامة تركيبية

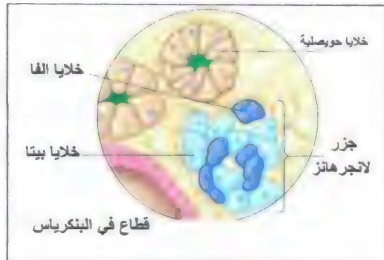

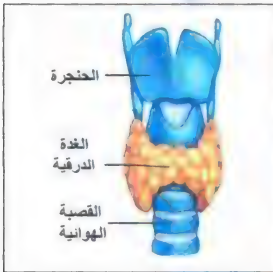

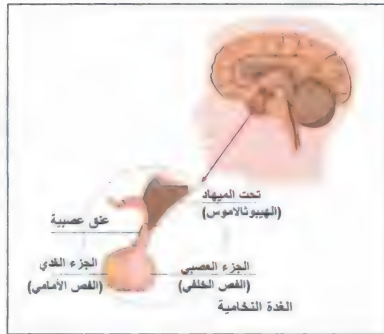

The diagram illustrates a DNA replication bubble. At the center is the replication fork, labeled 'محفلة النسخة (H)'. Two replication forks are shown, labeled 'محفلة النسخة (I)'. The DNA strands are shown as double helices. The leading strand is labeled 'المتن' (leading strand) and the lagging strand is labeled 'المتن' (lagging strand). The replication bubble is labeled 'فقاعة النسخة' (replication bubble). The DNA strands are labeled 'Z' and 'H'.
